Care of Food in Summer. The most serious damage to food in the home comes from foul and neglected ice boxes or refrigerators. Because of their heavy construction and usual location in a dark corner, refrigerators are often overlooked. Dishes overturn or are pushed out of sight and are not discovered until the contents are well along the road to putterfection. Every along the road to putrefaction. Every housewife or caterer should daily inspect the ice box and require it to be thoroughly and frequently cleaned. Do not entrust this responsibility to employes—see to it yourself that all is ship shape, sweet and clean.

Diphtheria In Bozrah. Three well developed cases of diptheria were discovered in a Bozrah boarding house Monday when Dr. W. T. Driscoll was called to that place. LOCAL COMPANIES READY FOR CALL TODAY

Warlike Aspect Prevails at State Armory on McKinley Avenue. Things began to take on a warlike aspect at the state armory Tuesday when the local companies made final when the local companies made final preparations for being called out this morning at 7 o'clock. Men in uniform were to be seen busy about different tasks necessary to being called. The Fifth Company has their equipment packed and ready for shipment. The Third Company Supply Sergeant was busy last night getting his company's equipment into the big chests ready to be sent to the place where

was busy last night getting his company's equipment into the big chests ready to be sent to the place where they will be stationed.

Many of the out of town militiamen stayed at the armory over night as it would be difficult for them to report at seven if they went to their homes. Captain Denison and Lieutenant Isbister of the Third Company also spent the night at the armory.

Official instructions were received by the commanding officers Tuesday relative to the governing of the men during the period from assembly to the arrival at the regimental mobilization camp. Senior Officer Captain W. G. Tarbox will be held strictly responsible for the carrying out of the instructions. Enlisted men will not be allowed to leave the armory except for drill or work unless clad in full uniform with blouse. At the assembly this morning a guard will be mounted and maintained until relieved by the commanding officer. The Third Company through a spirited campaign for recruits has 110 men, but owing to an order received Tuesday that all men over thirty-five years of age should be discharged, the company will lose two men. They are George Shore and Frank Phelps.

The following is the day's routine: Reveille, first call, 6.30 a. m., assembly 6.45, mess call 7, camp police 7.20, drill call 7.45, recall from drill 11, mess call 12, noon, drill call 1 p. m., recall from drill 4.30, mess call 5 retreat roll call 6, camp police 6.15, tatto 8.

SWEDEN ARE EXPENSIVE Whiskey and Soda, With Meal, Costs One Dollar.

Stockholm, July 24.—Devotees of distilled liquors have fallen on evil ways in Sweden. Restriction after restriction has been placed on sales both over the bar and in bottles. Since June 1 it has been impossible to be served with any kind of liquor without an accompanying order for a warm meal costing about 40 cents. Even then no more than fifteen cen-Even then no more than fifteen cen-Even then no more than fifteen cen-tiliters, about five fluid ounces, of li-quor may be served in all, and not more than a third of this may con-sist of the strong brandy which, in Sweden, has from time immemorial, taken the place of the American pre-tired in the control of the control of the control of the control

prandial cocktail.

One result of the new order unquestionably has been a great waste of food, for countless meals are ordered and either left untouched or also slightly toyed with and mixed with citar and citaratte ashes by careless cigar and cigarette ashes by careless rants and hotels, "restrictive meals," corresponding to the "property sandwich" of some American cities, are served. These consist generally of one fried egg. Before the recent change in regulations, which prescribe a "cooked, warm" meal, the "restrictive meal" was wont to consist of an

tive meal" was wont to consist of an apple or a few grapes.

Drinking thus becomes an expensive luxury. To obtain one whiskeyand-soda, for instance, one pays, in the better places, the equivalent of 40 cents for his "meal," the same for whiskey, 35 aere for a bottle of selt-zer or soda, and a tip to the waiter. The total amounts to more than one dollar at the present rate of exchange.

The restrictions on the sale of bottled goods for home consumption are even less liberal. They grant to the privileged holders of the "motbok" (passbook), the privilege of buying two quarts of spirits each three months, making possible a home consumption of little more than two-thirds of an ounce each day.

ESPIONAGE IN SWEDEN

ESTABLISHED CERTAINTY Three Germans of Prominence Have Been Expelled.

Stockholm, July 24.—Three Germans, one of them a captain of marines, have just been expelled from Sweden for espionage which unquestionably resulted in the sinking of many ships. Their seat of operations was Gothenburg, and their reports appear to have been made through Copenhagen. One posed as a merchant, the second as a teacher of languages, and the third, who was the leader, as a wholesale merchant.
